Suitable for touching up metals in general, wood, glass, ceramics, plastics, paper and expanded polystyrene. Also suitable for toys in accordance with technical standard EN 71-3.

### Technical specifications:

Quantity	400 ml
Box/case	6 units
Aspect	Tin-Plate can containing under pressure fluid
Colour	See color chart
Composition	PU resin
Odour	Soft
Relative density	at 20°C 0,78 ÷ 0,82 g/ml
Flammability point	Below 0° C highly flammable
Operating temperature	From 10°C to 130°C
pH	9
Gloss	From 10-20 gloss (matt) to 80-90 Gloss (glossy)
Solubility	Soluble in water
Thickness 2 coats	30-40 micron
Pressure	at 20°C 5,0 ± 0,5 bar
Cap	Patented child-proof cap
Color ref.	Token and ring
Drying time T=20°C:	Out dust 30 minutes
	Dry to touch 90 minutes
	Dry in depth 36/48 hours

### HOW TO USE

Thoroughly clean, degrease and dry the surface to be painted. Shake the can vigorously for at least one minute and make a test spray. Dispense onto the surface to be painted from a distance of 20-30 cm by applying two or more light, crisscrossing coats. The product is dry to the touch after 90 minutes and thoroughly dry after 36/48 hours. In case it is necessary to overcoat, wait at least 24 hours. Before exposing the painted product outdoors, wait until the enamel is thoroughly dry. Do not expose to contact with water or moisture before 7-8 days, and where possible avoid direct water contact of the painted surface. Do not apply the product at temperatures below 10°C or in high humidity. Do not wash the painted surface with ammonia or alcohol-based cleaners to avoid aesthetic alterations.

### MODALITY OF STORAGE

Before use: store the product in a dry place at temperatures between 10°C and 45°C.

In the original packaging, the product can be stored for 24 months (warranty). The product is not subject to expiration.

After first use: Close the canister with the cap and store in a cool, dry place, away from frost and heat sources. Keep out of the reach of children.
